Sheet 1: Equipment Master List

Asset No	Equipment Name	Manufacturer	Model	Serial No	Registration No	Location	Name Plate Photo	Status
BGM-001	Belt Loader	TLD	NBL-800	12345	DAC-001	HSIA	Photo Link	Active

Purpose

- Master database of all GSE equipment.
- Hyperlink to equipment photos and nameplate photos.
- Auto-generated Equipment ID.

Sheet 2: Preventive Maintenance Schedule

Ticket No	Asset No	Equipment Name	PM Type	Due Date	Last PM Date	Assigned To	Status
PM-2026-001	BGM-001	Belt Loader	250 Hr	01-Jul-26	01-Apr-26	Engineer A	Open

Conditional Formatting

- Red = Overdue
- Yellow = Due within 7 days
- Green = Completed

Sheet 3: Breakdown Maintenance Tickets

Ticket No	Date	Asset No	Fault Description	Priority	Assigned To	Status
BM-2026-001	25-Jun-26	BGM-001	Hydraulic leak	High	Technician A	Open

Sheet 4: Washing Schedule

Asset No	Equipment Name	Last Wash	Next Wash	Responsible Person	Status
----------	----------------	-----------	-----------	--------------------	--------

Sheet 5: Maintenance History

Ticket No	Asset No	Date	Activity	Parts Used	Cost	Downtime Hours	Closed By
-----------	----------	------	----------	------------	------	----------------	-----------

Every completed ticket automatically gets copied here.

Sheet 6: Spare Parts Inventory

Part No	Description	Stock Qty	Minimum Qty	Supplier	Unit Cost
---------	-------------	-----------	-------------	----------	-----------

Low stock items highlighted automatically.

Individual Equipment Logbook

Create one sheet per equipment or use a filtered log.

Example:

BGM-001 Belt Loader

Equipment Details

- Manufacturer: TLD
- Model: NBL-800
- Serial Number: 12345
- Biman Asset No: BGM-001
- Nameplate Photo
- Equipment Photo

Maintenance Records

Date	Ticket No	Maintenance Type	Description	Technician	Status
------	-----------	------------------	-------------	------------	--------

This provides the complete lifecycle history of the equipment.

Recommended Equipment for a GSE Wash Bay

- High-pressure washer (80 to 100 bar)
- Foam sprayer
- Steam cleaner (for engine and hydraulic components)
- Biodegradable degreaser
- Soft brushes
- Wheel brushes
- Air compressor
- Oil-water separator
- Drainage system
- Hose reel
- PPE station
- Eye wash station
- Spill kit

Washing Frequency

Equipment Type	Recommended Frequency
Belt Loader	Weekly
Passenger Stairs	Weekly
Tow Tractor	Weekly
Baggage Tractor	Weekly
Baggage Cart	Monthly
Cargo Loader	Weekly
Pushback Tractor	Weekly
Ground Power Unit (GPU)	Every 2 weeks
Air Start Unit (ASU)	Every 2 weeks
Lavatory Service Vehicle	Daily after use

Equipment Type	Recommended Frequency
Potable Water Service Vehicle	Daily after use
